Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This office action is in response to Applicant's amendment filed 9 April 2007.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 2, 4-8, 10, 11, and 25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amendment to claim 1 adds the phrase "folding the crimped binding strip". The original disclosure stated only that the binding strip was "folded and crimped" or "the securing means may fold or crimp the binding strip, in a known manner". The original specification did not disclose that the binding strip was folded subsequent to being crimped.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3722

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 12-16 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Hoffman (U.S. Patent Publication 2002/0164230 A1).

6. Regarding claim 12, Hoffman discloses an apparatus 10 for binding a sheet of paper comprising: a feed means 26/30 for feeding an end 32 of the sheet of paper 14 to be bound into a partially folded binding strip 22a having a longitudinal axis wherein the binding strip has two portions angularly disposed to each other extending from a fold line defining said longitudinal axis; and a reciprocating securing means 18 for securing the binding strip to the end of the sheet of paper, wherein the feed means (portion 26) directs the end 32 of the sheet of paper toward the binding strip 22a in a direction parallel to said longitudinal axis (during step C in figures 1 and 2) prior to securing the binding strip to the end of the sheet of paper with the reciprocating securing means.

7. Regarding claim 13, Hoffman discloses the securing means 18 folds or crimps the binding strip 22a (see paragraph [0029]).

8. Regarding claim 14, Hoffman discloses a supply means for supplying the binding strips 22a (per paragraph [0029], system 10 automatically processes a supply of workpieces 14 with slides 22, 22a without requiring operator involvement).

9. Regarding claim 15, Hoffman discloses forming equipment for forming the binding strips from a supply of metal (as disclosed in incorporated reference U.S. Patent 2,042,912).

Art Unit: 3722

10. Regarding claim 16, Hoffman discloses a displacement means for displacing the sheet of paper after the binding strip has been bound thereto, in a direction E parallel to the feeding direction D (see paragraph [0029]).

11. Regarding claim 18, Hoffman discloses a second feed means 20 for feeding an opposed end 24 of the sheet of paper 14 into a further binding strip 22.

Allowable Subject Matter

12. There is no prior art of record that reads upon claims 1, 2, 4-8, 10, 11, and 25 as currently written. However, the allowability of these claims cannot be determined at this time due to the 35 U.S.C. 112, 1st paragraph, new matter rejection.

Response to Arguments

13. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

14. For the reasons as set forth above, the rejections are maintained.

Conclusion

15. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
